SPEAKERS BUREAU

Name	Stanley Burke
Company/Agency /Organization	Precision Intelligence Consulting, LLC. (FBI, Ret.)
Email	precisionintelligence@earthlink.net
Cell Phone	(540) 907-7219
Topic of Presentation	Investigative Statement Analysis
Title of Presentation	SPOTTING LIES: Investigative Statement Analysis
Length of Presentation	1- 16 hours.
Presentation Objective	To provide student with the skills to detect veracity and/or deception in written and verbal communications.
Presentation Description	<p>Investigative Statement Analysis is the structured examination of an individual's verbatim words for the purpose of conducting more in-depth interviews. This presentation is designed to provide administrators and investigators with a structured method of examining verbal and written communication. Through practical demonstrations, attendees will learn about specific linguistic tools and strategies to use in analyzing the oral and written words provided by employees, applicants, witnesses, victims and suspects.</p> <p>Within the law enforcement context, Investigative Statement Analysis is used as an investigative tool to gain insight into an individual's thoughts, motivations and ideas. Statement Analysis is also used to recognize areas of veracity and to detect areas of possible deception.</p>
Speaker Bio	<p>Stan Burke retired as an FBI agent/unit chief after 26 years of service.</p> <p>While assigned to the FBI Academy, he taught investigative</p>

statement analysis and law enforcement ethics. As an FBI National Academy instructor, he taught both graduate and undergraduate courses to law-enforcement officers throughout the world.

In 2008, he collaborated with the FBI's Behavioral Sciences Unit and founded the FBI's Joint Communication Exploitation Research Team. Through his efforts, the JCERT analyzed statements submitted by law enforcement agencies worldwide and became an invaluable investigative resource. In 2010 he was awarded the prestigious FBI Director's Award for these efforts.

Stan retired from the FBI in 2011 and is currently the president of Precision Intelligence Consulting, which provides investigative statement analysis services and instruction to clients throughout the world.
